Introducing the New Atomic Work Deposit Program

At Atomic Athletics, we believe in growing stronger together—and that means family involvement is essential to our success. We're excited to launch a new program designed to increase support, reduce cost, and deepen our community connections: the Atomic Work Deposit Program.

What's Expected

Each household with a player U9 or older is asked to contribute 15 hours of Atomic Service during the 2025–26 season or pay a \$400 Work Deposit per family, making it more manageable for households with multiple athletes.

A combination of service hours and payment may be used to fulfill the requirement. The full commitment—whether through hours, payment, or a mix of both—is due by November 12, 2025.

If a family signs up for volunteer opportunities that occur after the November 12 deadline, those claimed hours will place a temporary hold on the family's account, allowing additional time to complete them.

If the \$400 deposit is paid in full and hours are completed after November 12, families are still eligible to submit those hours for a refund.

This flexible structure ensures families can participate meaningfully—even if their service begins later in the season.
